### **Professional Summary:**

- 6+ years of IT experience with exceptional skills in Analysis, Design, and Development of high scalable Web Applications and Mobile Applications using **HTML 4.0/5, XHTML, CSS2/3, Bootstrap, Wordpress, JavaScript, JQuery, AngularJS, NodeJS, AJAX, JSON** and **XML**
- Expert in developing front-end systems using **HTML/DHTML, DOM, BOM, XHTML, CSS, JavaScript, JQuery, AJAX** and developer tools like **Eclipse, Visual Studio, Sublime Text**
- Extensive experience in developing User Interfaces using **JavaScript, HTML5, CSS3, Bootstrap 3, AngularJS, AJAX, JSON** and **XML**
- Having good hands on experience in creating **Responsive Web Design (RWD)** so that the website is compatible with different devices like desktops, laptops, tablets, and smartphones
- Well versed knowledge on solving the **cross browser compatibility issues** both Web Applications and Mobile Applications
- Good Experience in **MVC framework** to reduce the complexity and to get full control over the behavior of the application
- Expertise in developing **AngularJS** as the development framework to build single-page applications (**Views, Directives, Controllers, Services, Routing** and **Dependency Injection**)
- Involved in running the **bower** and **grunt** components and writing the script using **Node.js**
- Extensive usage of **JavaScript, AngularJS, NodeJS, Bootstrap, jQuery/AJAX, JSON, HTML4/5, CSS2/3.**
- The front-end tech-stack use of **HTML5, CSS3, Angular JS, Node, AJAX, jQuery** and **Bootstrap** to build a single page web app and communicate with service by consuming **RESTful API.**
- Extensive working experience with different methodologies like **Agile (Scrum), Test-driven development (TDD)** and **Waterfall methodologies**
- Good experience in creating and consuming **Web services** and **SOAP, REST, WEB API services**
- Good hands-on experience in Databases like **MongoDB, SQL Server**
- Knowledge on CSS preprocessors like **LESS** and **SASS** to write the clean CSS
- Hands on experience using Source Code Control Systems like **SVN, GitLab, GitHub,**
- Excellent **Interpersonal** and **Communication** skills coupled with strong technical and problem-solving capabilities
- Experience in using the Telerik Kendo UI and in working on both **Development** and **Support** based projects with mission critical deadlines
- Expert at Search Engine Optimization (**SEO**) techniques

### **Technical Skills:**

<b>Web Technologies</b>	<b>HTML5, CSS3, Bootstrap, JavaScript, jQuery, Ajax, JSON</b>
<b>Frameworks/Libraries</b>	<b>MVC, AngularJS, NodeJS</b>

<b>Markup Languages</b>	<b>HTML, XML, XSLT, XSL</b>
<b>Database</b>	<b>SQL Server 2008/2005, MongoDB</b>
<b>Operating System</b>	<b>DOS, Windows, Linux</b>
<b>IDE Tools</b>	<b>Visual Studio, Dreamweaver, Sublime Text, Eclipse, Notepad++</b>
<b>Methodologies</b>	<b>OOPS/OOAD, UML</b>
<b>Version Control</b>	<b>SVN, GitLab, GitHub</b>
<b>Developer Tools</b>	<b>SQLDeveloper</b>
<b>Web/App. Servers</b>	<b>Apache, Tomcat</b>
<b>Designing Tools</b>	<b>Photoshop</b>
<b>SCM/Build Tools</b>	<b>Ant, Maven, Jenkins</b>

### **Project Summary:**

**Client : AAA, Dearborn (March 2015 – Till Date)**

**Role : Sr UI Developer**

### **Responsibilities:**

- Involved in discussions with client on the **requirements gathering, analysis, designing** till the design approval
- Worked with Business Analyst's and Project managers to drive out requirements and implemented an elegant solution to the task at hand
- Used **JavaScript, AngularJS, Bootstrap, HTML5, CSS3** for front-end development
- Developed user interfaces using **HTML5, CSS3** and **JavaScript**
- Developed common CSS classes for the user interface using **CSS** and **CSS3**
- Developed single page applications (SPA) using **AngularJS** and **Node.JS**
- Used **CSS Background, CSS Positioning, CSS Text, CSS Box Model, Pseudo Classes, Pseudo Elements** and **Gradients** in CSS
- Used Bootstrap **Media Queries** and **Grid System** to create Responsive web pages (**RWD**) for desktops, laptops, smartphones and mobiles
- Developed **Single Page Applications (SPA)** using **AngularJS** including MVC architectures, different modules, specific controllers, templates, custom directives and custom filters
- Fetched data from database into **JSON** or **XML** format files and retrieve useful information using **AJAX** calls to display them on the browser
- Involved in writing application level code to interact with APIs, **RESTFUL Web Services** using **AJAX** and **JSON**
- Extensively used Node JS Handling User Requests, Passing JSON Data using Routes
- Created **AJAX** calls using **AngularJS** to handle data operations including ordering & filtering
- Extensively used **JQUERY, JSON, AJAX** and **DOM** scripting to create interactive web applications
- Used **Jquery** and **CSS** selectors, toggles, and hover functionality
- Debugged the application using Firebug to traverse the documents and manipulated the Nodes using **DOM** and **DOM** Functions using Firefox and IE Developer Toolbar for IE
- Developed **CSSLESS** and **SASS** styles on all the pages of an application and positioning of objects
- Used **GRUNT** commands for building and deploying the project. Used **Bower** for successfully implementing the dependencies

- Performed unit testing using **Jasmine** along with integration testing Chrome Inspector to fix bugs and worked closely with QA team
- Responsible for maintaining versions of source code using **SVN and GitHub, GitLab**
- Followed **Agile** Software Development Methodology in the progress of the project
- Involved in Troubleshooting and Debugging of the application within Stipulated time
- Created automated **Unit test** plans and Performed **Unit testing** modules according to the requirements and development standards
- Delivered all assignments on time and with quality.
- Trained end users and coordinated during **UAT** testing.

**Environment:** HTML5, CSS3, JavaScript, Bootstrap, JQuery, AngularJS, AJAX, JSON, XML, REST Web services, DHTML, DOM, LESS, SASS, GRUNT, Jasmine, SVN, GitHub, GitLab, XML

**Client :Choice Technology(Aug 2014- Jan2015)**

**Role: Sr UI Developer**

**Responsibilities:**

- Involved in full life cycle of the project from requirements gathering to transition using **Agile** Methodology
- Handled all aspects of the web application including **design, development, testing, debugging and deployment**
- Responsible for developing the UI pages using **HTML5, CSS3, JavaScript, Bootstrap, jQuery, Ajax and JSON**
- Converted the mockups (**Wireframe**) into **HTML5, CSS3, JavaScript, JQuery, XML and JSON**
- Implemented **CSS3** features like **Borders, Colors, Text, Animations, multi-column layout and gradients**
- Used **CSS Sprites** to decrease the number of HTTP requests and load time of web pages
- Designed & implemented web pages that are compatible with mobile devices with cross browser compatibility across several browsers using **Bootstrap3**
- Used **Jquery** to make the application highly interactive and used **JSON** objects effectively for efficient client side coding
- Involved Storing and retrieving data from Column Oriented Data Base **Mongo DB**
- Developed the whole application module using front-end frameworks such as **JavaScript, JQuery and AngularJS**
- Involved in writing application level code to interact with APIs, **Web Services** using **AJAX, JSON, and XML**
- Analyzed and optimized pages and page design for maximum performance
- Responsible for the design of web applications right from the conceptualization stage to its implementation and maintenance
- Responsible for checking cross browser compatibility and hence worked on different browsers like Safari, Internet Explorer, Firefox and Google Chrome
- Responsible for creating **Tables, Stored Procedures, Triggers, Scripts** for database transactions on **Oracle 11g**
- Trained end users and coordinated during **UAT** testing.

**Environment:** HTML5, CSS3, JavaScript, Bootstrap, JQuery, AJAX, JSON, XML, REST Web services, DHTML, DOM, LESS, SASS, Tomcat, Oracle 11g, SVN, Git, UML, XML, JIRA

**Client :Choice Technology (May 2011 – July 2013)**

**Role :Web Developer**

**Responsibilities:**

- Worked with business analysts to understand their business models and goals and help define strategy, content, and features
- Responsible for **Analysis, Design, and Development**
- Involved in designing the front end applications using web technologies like **HTML, CSS, and JavaScript**
- Built Web pages that are more user-interactive using **Jquery, AJAX, and JavaScript**
- Implemented different validation control on the web-pages using **JavaScript**
- Implemented **AJAX** functionality using **GET** and **POST** requests in Ajax call of **XML, JSON** using **JavaScript, jQuery**
- Performed cross browser compatibility testing with IE, Firefox, Chrome, Safari and worked with **Cross-Browser Compatible issues**
- Handling Production issues and modifying the code according to the requirement
- Wrote test cases and performed **regression testing**
- Involved in **Unit & Functional Testing**
- Giving the production support and maintenance
- **Bug fixing** based on issue generated by the client

**Environment:** HTML, CSS, JavaScript, JQuery, AJAX, JSON, XML, REST Web services, DOM, Eclipse, Apache, Tomcat, Manual Testing

**Client : MagicPrice.in, India (Jan 2010 – March 2011)**

**Role : Software Engineer**

**Responsibilities:**

- Involved in Analysis, Design, Coding, Testing and Maintenance phases of the software development life cycle (**SDLC**)
- Designed web forms by implementing **CSS, HTML, and JavaScript**
- Created User Controls for the header and footer of the website which appears in all the pages
- Designed and developed stored procedures and User defined functions **SQL Server** Database
- Created queries and stored procedures in the **SQL Server** Database
- Participated in project planning sessions with project managers, **UX** team members, and Engineers to analyze requirements and outline proposed solutions
- Participated in meetings with the end-clients to develop layout, color scheme for the web page and implemented them with the help of **HTML5, CSS3, JavaScript, and JQuery**

**Environment:** Notepad++, Dreamweaver, SQL Server 2005, HTML, CSS, JavaScript and JQuery.

**Education:**

- **Bachelor's in Computer Science** from **ANU University**
